Name: Somesh Jugalkishor Somani

Enroll No: 1906124

Division: H3 – C Batch

Subject: Web development using JavaScript

Practical No: 06
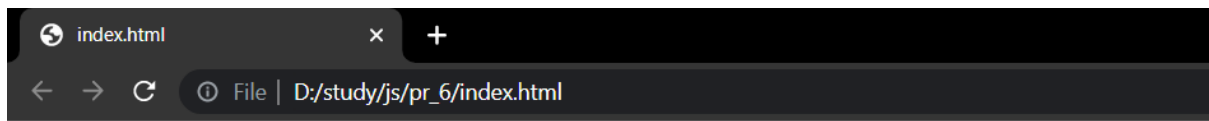

Aim: Program to convert string to number

**Input: -**

```html
<!DOCTYPE html>
<head>
  <style>
    input {
      padding: 5px;
      outline: none;
      display: grid;
      margin-bottom: 10px;
    }
    button {
      padding: 10px;
      margin-top: 10px;
      background-color: #000;
      color: #fff;
      transition: ease out;
      transition-duration: 200;
    }
    button:active {
      transform: scale(0.98);
    }
    #result {
      display: flex;
    }
    p {
      margin-right: 10px;
    }
  </style>
</head>
<html>
  <body style="padding: 20px">
    <h1>Practical 6</h1>
    <input id="str" placeholder="Enter string" />
    <button id="btn" onclick="submit()">Convert</button>
    <div id="result"></div>
    <script>
      function submit() {
        var str = document.getElementById("str").value;
        var result = document.getElementById("result");
        var p = document.createElement("p");
        p.innerHTML = "The interger value is: " + parseInt(str);
        result.appendChild(p);
      }
    </script>
  </body>
</html>
```

Output: -

Conclusion: In this practical we learnt how to convert string to number using parseInt method.
