Name: Somesh Jugalkishor Somani

Enroll No: 1906124

Division: H3 — C Batch

Subject: Web development using JavaScript

Practical No: 10

Aim: . Develop a program to access height and width properties of browser window

Input: -

```html
<!DOCTYPE html>
<head>
  <style>
    input {
      padding: 5px;
      outline: none;
      display: grid;
      margin-bottom: 10px;
    }

    button {
      padding: 10px;
      margin-top: 10px;
      background-color: #000;
      color: #fff;
      transition: ease out;
      transition-duration: 200;
    }
    button:active {
      transform: scale(0.98);
    }
  </style>
</head>
<html>
  <body style="padding: 20px">
    <h1>Practical 10</h1>
    <button id="btn" onclick="submit()">Get dimesnions</button>
    <div id="result"></div>
```
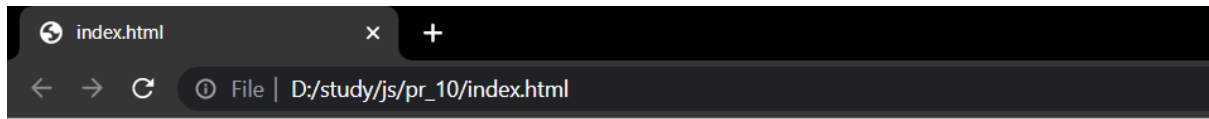

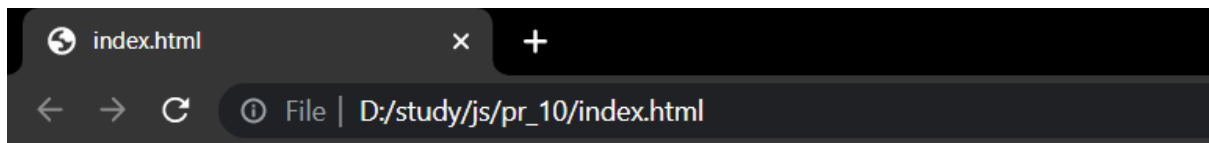

```html
<script>
  function submit() {
    var result = document.getElementById("result");
    var p = document.createElement("p");
    p.innerHTML = "The dimesions of window are: ";
    var ol = document.createElement("list");
    var width = document.createElement("li");
    var height = document.createElement("li");
    width.appendChild(
      document.createTextNode("Width of window is: " + window.innerWidth)
    );
    height.appendChild(
      document.createTextNode("Height of window is: " + window.innerHeight)
    );
    ol.appendChild(width);
    ol.appendChild(height);
    result.appendChild(p);
    result.appendChild(ol);
  }
</script>
</body>
</html>
```

Output: -

Conclusion: In this practical we learnt how to access browser width and height
